

Turing-Roche Strategic Partnership Stakeholders

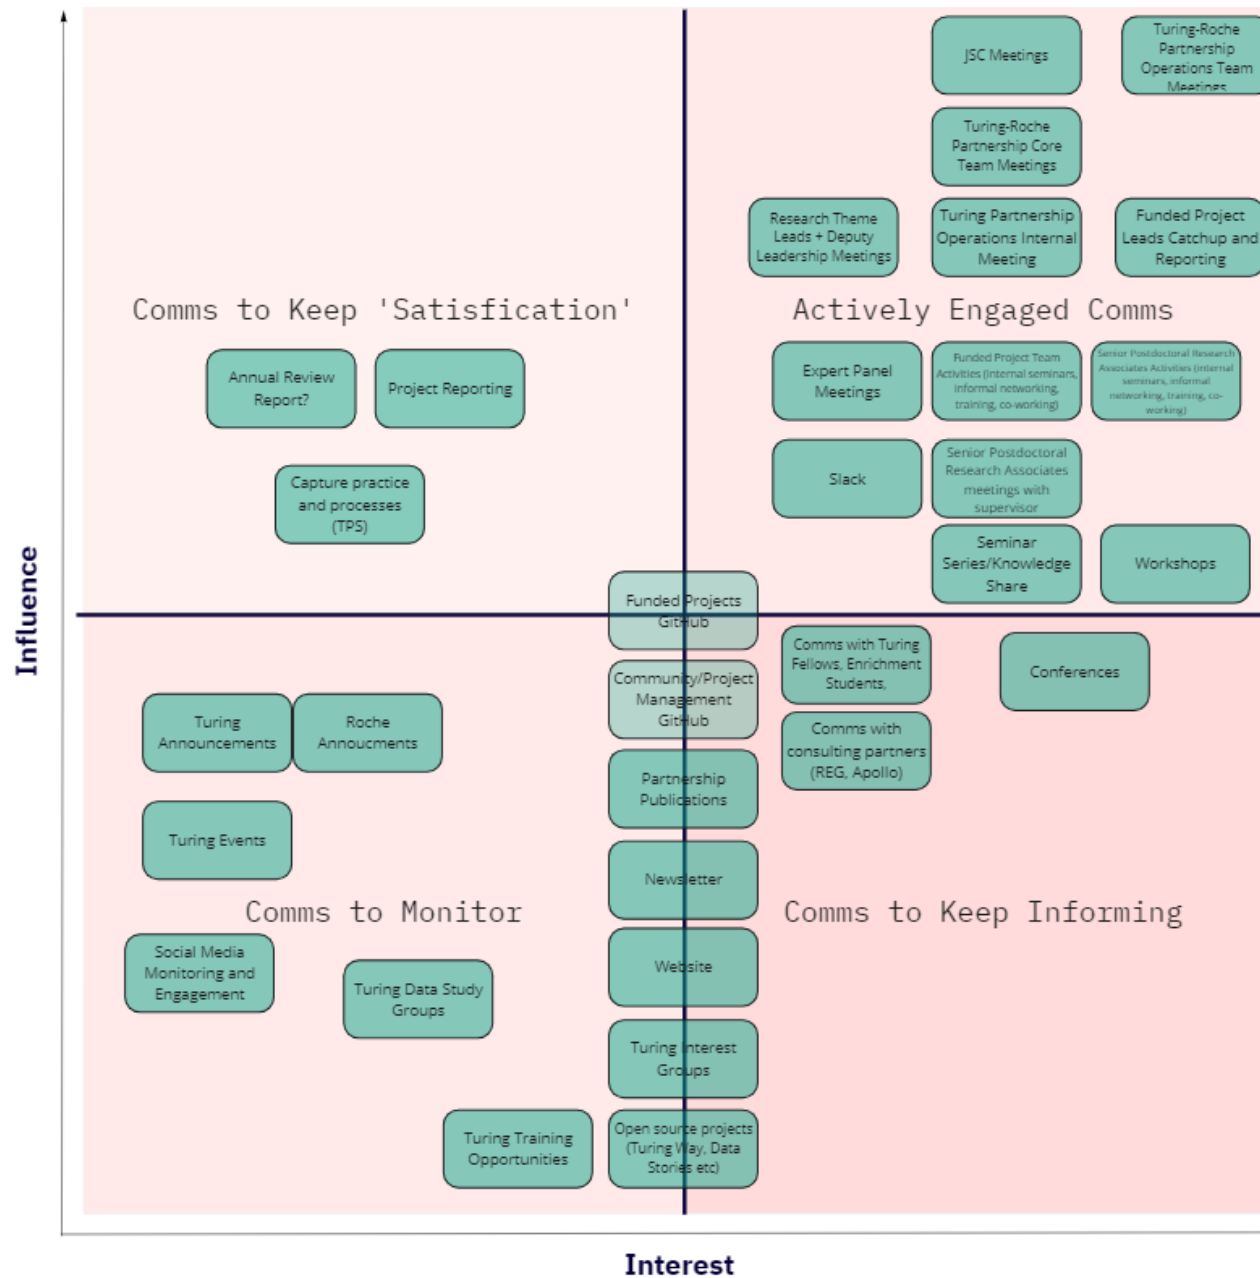

Stakeholders:

Influence

Interest/Availability

Organisation, Department and Research Group Mapping- who can we get involved generally in partnership research? [Can add to this when next theme chosen]

The Alan Turing Institute

Roche

Patient Heterogeneity*

*Lots of international researchers tackling this but often in a disease specific way

Personalised/Precision Medicine

Causal Inference

Machine Learning

Health Inequalities

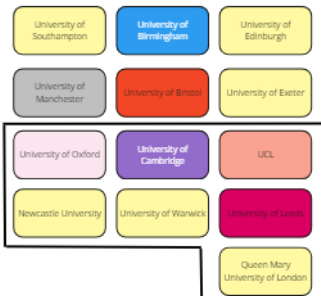

Missingness

These research terms were hard to find 'departments/research groups' for (particularly in the health space) but found researchers relevant to us often had these terms in their job titles:

- Applied mathematics
- Mathematical Science
- Statistical Epidemiology
- Big Data Analytics
- Systems Biology
- Computer Science
- Medical Bioinformatics
- Clinical Informatics
- Neural Networks
- Network Science
- Statistical Computing
- Stochastic Programming

Turing University Partners

Turing Network Development Award Universities

Attended SM workshops
